AS THE NEWS BREAKS

[By Associated Press.]

FORT WORTH, Tex., Sept. 9.—Fort Worth city schools, which were scheduled to open for the winter sessions today, have been postponed for a week on account of the Jewish new year beginning September 9. The schools will open September 15.

SHAWNEE, Okla., Sept. 9.—Great preparations were made today for the opening of the new Catholic University. The event is being celebrated by the people of Shawnee as a big step in the educational development of the city. The building was begun in 1912 and is complete and ready for occupancy. In addition to schools in the arts and sciences the university will offer a business course.

AUSTIN, Tex., Sept. 9.—Passenger earnings of Texas railroads decreased \$3,612,461 during the fiscal year ended June 30, 1915, according to a report issued by the Texas Railroad Commission. The total passenger during this period were \$29,550,088, the report shows. The decrease is attributed to war conditions. Despite this decrease in passenger earnings, the net income of Texas railroads increased from \$18,585,888 to \$20,710,135, it is said, or a net increase of 11.44 per cent. Total operating expenses were \$109,205,904, a decrease of 2.22 per cent; freight earnings were \$73,293,356, an increase of 1.97 per cent, and operating expenses decreased 5.06 per cent.

AUSTIN, Tex., Sept. 9.—It appears very likely, according to persons in a position to speak with some degree of authority, that Governor James E. Ferguson will adopt the recommendation of the Senate penitentiary investigating committee relative to the leasing of the State's Rusk iron furnace. The recommendation would lease the iron plant for a period of five to ten years to private individuals. The committee believes the State could make money by such a lease.

PUT MORE FOOT IN FOOTBALL

Change in Rules Will Make Game More Spectacular—Pleases Director Driver of A. & M.

W. L. Driver, athletic director at the A. & M. College, is pleased with the changes in the football rules as announced in the rule books which have appeared only recently. The change in the forward pass rules, whereby passing out of bounds will cease to be practiced, is especially favored by Mr. Driver.

"This change will make for more kicking and generally improve the game from the spectator's standpoint," said Mr. Driver. "I am glad to see this change because there have been very few thrills to a long out-of-bounds pass. When the ball is kicked for a good distance and returned through the field the game is improved from the spectator's standpoint."

"The other changes also make for general betterment of the game, but are not of vital importance. The substitution rule, making it necessary to start a man who has been withdrawn from the field, at the beginning of the fourth quarter rather than at any period during the quarter when his services may be needed most, may work a hardship on some few teams."

Student Manager A. C. Bull of the Aggies is due to arrive at College Friday from his home at Austin. Captain Garrity of Corsicana will return some time this week, and the college is in readiness for the arrival of the Farmer football warriors.

RAILROAD NOTES.

The Pennsylvania Railroad Company has asked for bids on sixteen new vessels for use in New York harbor.

Hearings on the proposed 1-cent increase in rates on petroleum products from Kansas points to the East will be held at Cleveland October 19. The Interstate Commerce Commission announces.

St. Paul, Minn., will build a new union depot and sell \$15,000,000 in bonds for that purpose. The narrow shelf on which railroads must run between a hill and the river at that city causes a natural and inevitable concentration of lines at the union depot.

The Baltimore & Ohio has placed a contract with several steel mills for 17,000 tons of steel rails and with car manufacturers for 1,000 steel hopper car bodies for immediate delivery. The material covered by the contracts will cost about \$1,000,000. The rails will be 100 pounds and the car bodies of 100,000 pounds capacity. These bodies will be placed on trucks rebuilt in the company's shops. This order supplements contracts for steel equipment announced in July valued at \$2,500,000.

MUCH ADLER-IKA USED IN BRYAN.

It is reported by E. R. Emmel that much Adler-Ika is sold in Bryan. People have found out that ONE SPOONFUL of this simple buckthorn bark and glycerine mixture relieves almost ANY CASE of constipation, sour or gassy stomach. It is so powerful that it is used successfully in appendicitis. ONE MINUTE after you take it the gasses rumble and pass out. It is perfectly safe to use and cannot gripe.

ELECTRICAL STORE MOVED.

D. D. White, who recently purchased the R. E. Cole electrical supply establishment, has leased the Eugene Edge building on Mosely street or the house formerly occupied by the Bryan Motor Car Company, and will open a garage in connection with his electrical business.

The fixtures and stock of the electrical department were moved from the former location in the Dolbrovolny building on Main street today to the new location.

Mr. White states that he will have expert mechanics, will carry a full line of automobile equipment and will also have a gasoline filling station.

New fixtures for the automobile department are being installed, and other interior improvements are being completed.

Mr. White expects to open his garage and automobile department by Monday, September 20, but is ready for all business in the electrical department now.
